## **Pupil Health and Safety in Hot and Cold Weather**

To ensure that pupils have protection from the sun in hot weather parents/carers are asked to apply sunscreen before sending their child to school in the morning when the weather is hot and to supply their child with a bottle of sunscreen labelled with their child's name. This will be for the pupil's own personal use, when required, during the school day and will need to be applied by the child. If your child suffers from any allergies or has any other specific health requirements relating to the hot weather, please ensure school is informed and an Individual Healthcare Plan will be put in place.

During the winter months parents/carers are asked to ensure that their child is provided with an appropriate coat, gloves and hat for school (labelled with the child's name). In extremely cold weather the advice is for pupils to be wearing long trousers or tights as part of their school uniform.
