Every afternoon, your child will have a live lesson with their teacher at their allocated time. The activity they will be doing is shown in the timetable above.

On a **Monday**, we would guide you to be doing some of the French and PE activities as part of the afternoon learning also.

On a *Tuesday – Friday*, to supplement your child's learning outside of the live session, you can choose any of the alternative online resources your child has allocated to them or in the team's folder labelled 'supplementary learning', there are some other resources that we would recommend browsing and using as appropriate.
